

Corey Ladovsky

Fullstack Developer

Brooklyn, NY | (541) 231-6160 | coreyladovsky@gmail.com | [LinkedIn](#) | [Github](#) | [Website](#)

PROJECTS

Help! (*Rails, React, Redux, AWS, CSS3, HTML5*) - [Live](#) | [GitHub](#)

A single page application inspired by Yelp where users are able to rate and review restaurants.

- Utilizes PostgreSQL in conjunction with Active Record to immediately re-calculate averages of business qualities after a new review is added.
- Employs CSS Flexbox to provide an intuitive and user friendly experience.
- Leverages a specialized slice of state to redirect users to an intended page after a successful login.

Maze Spinner (*JavaScript, Canvas*) - [Live](#) | [GitHub](#)

A game where users race through a maze while it randomly rotates.

- Applies JQuery to track user key inputs for fluid movements.
- Incorporates Canvas' requestAnimationFrame for a smooth and attractive display.
- Features a series of threaded asynchronous functions for never-ending random gameplay.

Master of the Domain (*JavaScript*) - [Live](#) | [GitHub](#)

A jQuery-inspired lightweight library that focuses on DOM manipulation using vanilla JavaScript as demonstrated by the snake game live link above.

- Includes AJAX requests as well as the ability to add event listeners.
- Classes can be added or removed to selected elements.

SKILLS

Ruby, Rails, JavaScript, JQuery, React.js, AWS, Redux(Flux), SQL, HTML5, CSS3, d3.js, RSpec, Git

EDUCATION

App Academy, NYC (Fall 2017)s
